PROFESSIONAL SUMMARY

Web Developer and IT Support Specialist with experience in frontend development, website testing, technical troubleshooting, and customer support. Skilled in building responsive web applications using HTML, CSS, JavaScript, React, and WordPress while providing reliable technical assistance for software, hardware, and system-related issues. Developed problem-solving abilities, attention to detail, and a user-centered approach to delivering technology solutions with professional background.

WORK EXPERIENCE

iPhitech IT and Digital Solutions | Jul 2023 - Aug 2023

Web Development Intern

- Trained in developing and maintaining responsive websites using HTML, CSS, JavaScript, WordPress, and e-commerce platforms translated UI designs from Figma.
- Conducted website testing, quality assurance, and issue resolution to improve user experience.

North Software Solution | Sept 2024 - Dec 2025

IT Technical Support

- Resolved hardware, software, POS, and system-related technical issues while maintaining high levels of customer satisfaction.
- Documented technical issues, resolutions, and troubleshooting procedures to improve operational efficiency and knowledge sharing.
- Coordinated with clients to gather technical requirements, identify root causes, and recommend appropriate solutions.
- Utilized remote support tools and digital platforms to provide timely technical assistance and issue resolution.

RELEVANT PROJECTS

Tarlac State University | Sept 2023 - May 2024

Thesis: Enhanced Online Video Contents Website with Age Detection Using CNN - Pre-published

- Led and co-developed an online video content platform incorporating Convolutional Neural Network (CNN) age detection technology. Participated in system design, testing, research documentation, and technical implementation while ensuring functionality and usability requirements.

<https://a3ronwork-ux.github.io/portfolio/> - May 2026

Portfolio Website - In Progress

- Designed and developed a responsive portfolio website using HTML, CSS, JavaScript, ReactJS, and API integrations. Applied UI/UX principles, accessibility, and modern design practices to deliver an engaging user experience.
